Clinical Services
Available

Professional Assessment Services

\$225 per hour

Services include psychological assessments, psychoeducational assessments, comprehensive neuropsychological assessments, social skills groups, and medication evaluations and consultations.

Typical psychological assessments take 2 hours. More in depth evaluations of learning aptitudes and psychoeducational assessments take up to 6 hours. Comprehensive neuropsychological batteries can take up to 12 hours depending on patient history and the goals of the assessment.

Typical medication evaluations take 30 minutes to 2 hours, depending on patient history and treatment goals.

Professional Counseling Services

\$125 per hour

Professional counseling services may include individual child, adolescent or adult therapy, and social skills groups conducted by one of our skilled cognitive-behavioral professionals with specific training in attention, behavior, and learning disorders. Additionally, our professionals are trained in the treatment of commonly co-occurring problems such as mood and anxiety disorders. We offer individual and group parent training as well as group social skills training for children and adolescents. We also provide educational therapy, specifically designed to meet the academic challenges of children, adolescents and young adults with learning, attention and behavior disorders. Initial treatment programs typically indicate weekly sessions for 8 weeks. Interested individuals should contact:

Sabrina Schuck, Ph.D.
